Amherst Karate Studio Intent to Promote Form

Amherst Karate Studio is serious about proper student development. It is our sincere desire to see that all of our students develop character traits such as integrity, respect, self-discipline and self- control not only not only at our karate studio but in all aspects of their lives, like at home and in school.

Your child/ student: _____, is preparing to advance to the next belt level at Amherst Karate Studio within the next 5 weeks. We ask that you please sign this form below verifying that this student consistently exhibits good behavior both at home and at school.

A parent and/or guardian and the students teacher must sign this form in order for the student to be eligible for belt advancement.

Note to parents: This is a very exciting time for your child, however, as this promotion involves testing of required material, it can also be difficult for some students. If you would like to help your child but aren't sure how, please talk to Mr. Peacock or a staff member about your concerns. We have many resources available at AKS that may help.
